

Ramart Systems — Copyright & Intellectual Property Policy

****Owner:**** Ramart Systems

****Contact:**** info@ramartsystems.com

****Effective date: 5.8.2026**

****Version:**** 1.0

1) Ownership

Unless explicitly assigned by signed agreement, all rights, title, and interest in Ramart Systems products, source code, design systems, documentation, text, graphics, and related materials remain the exclusive property of Ramart Systems.

2) Licensed use vs ownership transfer

Customer purchase grants a license to use according to product terms; it does not transfer underlying copyright or trademark ownership unless explicitly stated in writing.

3) Permitted modifications

Where the product listing/license allows, customers may customize product copies for their own business operations.

4) Prohibited actions (unless explicitly licensed)

- Republishing or reselling product source/packages as standalone competing products
- Redistributing templates/toolkits to third parties beyond licensed scope
- Removing copyright notices and author attribution from source files where notice retention is required
- False attribution or passing off Ramart Systems work as third-party original work

5) Trademarks and branding

Ramart Systems name, logos, and brand identifiers are trademarks/brand assets of Ramart Systems and may not be used to imply endorsement, partnership, or ownership without prior written permission.

6) Client-provided materials

Customer warrants they have rights to any assets they provide (logos, datasets, content). Customer indemnifies Ramart Systems for claims arising from unlicensed client-provided materials.

7) Open-source and third-party components

If a product includes third-party components, customer use is subject to applicable third-party licenses. Ramart Systems will provide notices where required.

8) Infringement reporting (notice-and-action)

To report suspected infringement involving Ramart Systems content, send:

- Your identity and contact details
- The work allegedly infringed
- URL/listing/file location of suspected infringement
- Basis of your claim and supporting evidence
- Good-faith statement and authority statement

Send to: `ramartsystems@outlook.com`

Ramart Systems will review notices and may request additional information before action.

9) Enforcement

Ramart Systems reserves all legal and equitable remedies for unauthorized use, including takedown requests, account/platform complaints, and legal action.

10) Policy updates

Ramart Systems may update this policy periodically. Updates apply from effective date.
